

Card Associations & Compliance

Euronet offers a comprehensive suite of international and domestic card association interfaces including - Visa, MasterCard, UPI, AMEX, Discover, Diners, Pulse, NYCE, STAR, RIBS, EDS, CarlFS, Lankapay, ITS, JETS, Dina, EBC-123, SWIFT, and many regional networks around the globe.

Deployment Options and Euronet EFT Gateways

Euronet offers on-premise and cloud-based deployments of our card association interfaces when your financial institution prefers direct relationships with the card brands.

Euronet also offers managed service and SaaS models which provide an EFT Gateway to the card associations. This model offers a simplified approach to supporting major card brands without the complexity of establishing direct interfaces and leverages Euronet's existing interfaces and certifications with the card brands using one of our global processing centers.

Compliance & Mandates Subscription

Many major card brands offer bi-annual mandates which are designed to protect the integrity of the payments ecosystem by improving the consumer experience and making it harder for fraudsters to place unauthorized transactions. Mandate subscriptions and updates are available through standard maintenance agreements. Mandate compliance is a service included with our EFT Gateway deployments.

Euronet compliance specialists actively monitor mandate requirements and Euronet enhances our card brand interfaces on behalf of our clients to maintain mandate compliance with the networks.
