

Make Modern Payments a Reality

More than just processing a payment transaction, Ren is a pathway to innovation, allowing our customers to keep pace in an ever-changing financial environment by providing modern technology with total freedom.

Deploy Ren in popular cloud environments:

Or a private cloud of your choosing.

Visit us at www.renpayments.com and learn how our platform can help you revolutionize your payment operations.

Ren doesn't stop, even when everyone else does.

Modern Technology

While other systems struggle to keep up with customer demand, our flexible and customizable microservices-based platform paves the way for instant innovation.

Relentless Reliability

Say goodbye to downtime. Ren is a self-aware and self-healing platform that is always on in active payment environments.

Customer Centric

We strive to simplify the complicated new world of payments for our customers. Because we developed Ren and use it ourselves, we have firsthand knowledge of how to solve any issues.

On Premise Deployment:

- Replace aging financial institution infrastructures
- Deliver modern and frictionless payments experiences
- No rip and replace required
- Replace key system pain points and operate in parallel
- Full replacement strategies
- "Pay As You Grow"
 - » Incrementally replace according to product roadmaps, resource availability, and budgets
 - » Flexible licensing and transaction-based pricing options available

Euronet Hosted Deployment Options:

- Managed Software as a Service (SaaS) with the power of Euronet
- Access to Euronet's global value-added services via Ren API Gateway:

epay serves the retail sector with custom solutions and delivers innovative connections between the world's leading brands and consumers.

Euronet's Money Transfer Segment offers real-time, cross-border payments to consumers and businesses across 190+ countries and territories. They also enable banks, fintechs and big tech platforms to integrate an international payments solution into their own platforms.

As a pioneer in Dynamic Currency Conversion, Euronet's SureXchange DCC solution provides international travelers the option to conduct withdrawal and payment transactions in their home currency in real-time, providing the cardholder the transaction cost in their native currency.
